### Weather Control

Don't expect the breezes to do all the work. Though a sunny day can make the porch the most comfortable room in the house, installing Our "Easy Living" Screened porch system can extend the life of your outdoor space whether it's the height of summer or a cool autumn day. Outdoor-rated fans are a stylish way to keep a porch cool. Our "Easy Living" is a perfect way to let the outdoors in.

## Create a Sunny Living Area

A perfect sunroom lets you enjoy the sun without being oppressed by it. It provides all the benefits of being outdoors, but with none of the drawbacks. With large expanses of windows, this 12x16-18 foot sunroom offers the sensation of being outdoors without exposure to the elements. From \$28,000.

## Cozy Pool Cottage with Lanai

Want a place to keep your motorcycles or make a wood shop and have a outdoor gathering place? A Stephen Alexander back yard cottage may be just right for you. From \$14,900.00

## Indoor Comfort, Outdoors

A truly livable outdoor space needs the same amenities as your favorite indoor space. With cushioned furniture, and ample lighting, you can create an outdoor room as comfortable and warm as the coziest living room. All-weather furniture on this patio creates a series of charming spaces for parties, outdoor dining, friendly conversations, or quiet reading.
